Requirements

- Voraussetzung für Teilnahme: Bestandener Selbstlernkurs textilLAB
- Machine-Reservierung

Our Machines

Here you can find all manuals for our machines, available for easy download.

- Embroidery Machine
- Sewing machine W6 N5000 exclusive
- Sewing machine W6 N 9000 QPL
- Overlock machine W6 N 454d Freiarm
- Bernina Q24: Langarm-Quiltmaschine

Borrow our Iron

You can **borrow our iron** at the front desk from the **Library of Things** in the library. Together with the ironing board in the TextilLab, you can use it to press your fabrics.

Tip: Well pressed is half sewn. □□

The iron can also be used to apply fusible interfacing (Vlieseline) to fabric. For example, this is useful for jersey fabrics when you want to embroider them, as the interfacing stabilizes the material and prevents it from stretching or puckering during stitching

Gisela, Our Sewing Mannequin

You can use **Gisela** (female form, approximately size M) for draping tops and bodice garments, as well as for hemming skirts (the skirt length can also be displayed on her).
