

Otto

Our fellow researcher M. Sc. Yonghuan Fu from the Fachgebiet Angewandte Nanophysik contacted us because he wanted to build a little robot in order to promote his sodium batteries.

Detailed information can be found at this link <https://fablab.tu-ilmenau.de/#!/projects/robots-powered-by-all-solid-state-sodium-ion-batteries>

This work was supported by FabLab/UNIKAT and Otto Robot Open Source Project.
