14:35:38 Von Rico Kanthatham an Alle: super important

14:35:54 Von henk an Alle: finally some time to work on their final project :) Adrián - Fab Lab León, Oscar Diaz - Enterprise FabLab, Nuria Robles | LEON:♥ Milliam:☐☐

14:36:01 Von Milliam an Alle: It works well to check on the progress of the final project. And also it let's them know what is expected.

14:36:14 Von Noor Ahmed Raza Pirwani an Alle: people still found it a new thing, however it spare time to focus on final project

14:36:24 Von Adrián - Fab Lab León an Alle: Replying to "finally some time to work on their final project": Good idea.

14:37:08 Von Pablo Fab Lab León an Alle: that doesnt help the asesment XDDD

14:37:21 Von Krisjanis Rijnieks an Alle: Our focus was looking at power input jacks, panel mount rocker switches, strain reliefs, splitting circuit boards into modules and why networking is important in that context Adrián - Fab Lab León:☐☐

14:37:21 Von Milliam an Alle: @Jani Ylioja is it still too late for me? Milliam:☐☐

14:37:24 Von Pablo Fab Lab León an Alle: FAQ: Do what you want XD

14:38:00 Von Pablo Fab Lab León an Alle: Replying to "@Jani Ylioja is it still too late for me?": no...you cant leave ☐☐

14:38:49 Von Jani Ylioja an Alle: Replying to "@Jani Ylioja is it still too late for me?": Yes, absolutely too late to leave :D

14:38:55 Von Pablo Fab Lab León an Alle: encourage 3D millling if the student dont do the molding with wax.

14:39:19 Von Benedikt Feit an Alle: Is 4th axis milling allowed or is it also to close to what we already did?

14:40:37 Von Steven an Alle: Document steps taken to ensure that your final project has proper systems integration, e.g. packaging, mountings, wiring & routing, to reduce failures & ensure your project is robust & reliable?

14:40:42 Von Ricardo Marques an Alle: welding metal 3d printed parts with some other components.

14:41:40 Von Adrián - Fab Lab León an Alle: Thermoforming, composites, embroidery... there are many things to do.

14:43:06 Von Elen Grigoryan an Alle: what about CNC bending machine for wildcard week?

14:43:30 Von Nicolas De Coster an Alle: also about current to avoid killing them

14:43:59 Von Nicolas De Coster an Alle: i was not talking about students :-D

14:44:00 Von Lars Mattern - HRW Fablab an Alle: Are there special requierments, when the students would like to use a metal laser cutter.

14:44:04 Von Nicolas De Coster an Alle: but about capacitors

14:44:15 Von Benedikt Feit an Alle: Normally I used a watchdog but there are no in the inventory, so i was not sure how the idea was to implement them.

14:45:23 Von Saeed an Alle: what about fiber laser engraving for pcb

14:45:54 Von saheen palayi an Alle: Replying to "what about fiber laser engraving for pcb": try multi layer PCB in FAB

14:47:06 Von Noor Ahmed Raza Pirwani an Alle: I have one general question:

Some weeks show 100% progress but aren't marked complete due to minor corrections. As a global evaluator, should I wait for the local evaluator to complete them, or can I review in parallel to ease the load?

14:47:35 Von Pablo Fab Lab León an Alle: Replying to "I have one general question: Some weeks show 100%...": keep comunication with the local

14:49:23 Von Noor Ahmed Raza Pirwani an Alle: Replying to "I have one general question: Some weeks show 100%...": I tried on several channels to communicate, but no response from one local evaluator, then last day when I checked the progress so drastically he checked more than 7 weeks in 2 to 3 days. but many of them are 100 percent and mark as completed

14:49:44 Von Adrián - Fab Lab León an Alle: Replying to "I have one general question: Some weeks show 100%...": Do you find it in mattermost?

14:49:51 Von Noor Ahmed Raza Pirwani an Alle: Replying to "I have one general question: Some weeks show 100%...": yes no response

14:49:57 Von Pablo Fab Lab León an Alle: Replying to "I have one general question: Some weeks show 100%...": maybe its a good time to send a mail to coordination :) Noor Ahmed Raza Pirwani:☐☐
