15:02:03 Von Pablo Fab Lab Leon an Alle: Replying to "{DE46E4C5-2B02-4E1D-AA5F-6D213578B6F3}.png": how can you survive then? ☐☐

15:02:46 Von Pradnya K an Alle: Replying to "{DE46E4C5-2B02-4E1D-AA5F-6D213578B6F3}.png": Just like everyday ☐☐

15:03:04 Von Pablo Fab Lab Leon an Alle: You are part of a network of PEOPLE! Welcome!

15:03:13 Von Shintaro Ito:Node japan kannai an Alle: Turning on the camera may have a positive effect on learning. Some studies have shown that keeping the camera on consistently has a positive impact on students' subjective learning experiences and attention. The visual feedback allows students to focus more on the lesson content, leading to improved comprehension.
<https://x.gd/1pVTA>

Additionally, from my personal experience, I once provided several months of online training to about 100 people. Some time later, a stranger approached me on the street. I had no recollection of this person at all, but after talking for a bit, I realized they had been one of my students. Back then, they had been too shy to turn on their camera, but meeting me in person made them so happy that they reached out. However, since I couldn't associate their name with a face, I was left feeling nothing but sadness.

For those who keep their cameras off, turning them on still provides an opportunity to build a human connection with Neil.

Rico Kanthatham:☐☐

15:03:23 Von Shintaro Ito:Node japan kannai an Alle: We are still on this journey together.

Of course, if you are attending Fab Academy during an important meeting, have a very weak internet connection, are dealing with some kind of trouble, or hold a strong belief system that requires keeping your camera off, then this does not apply to you.

Thank you for taking the time to read this long message.

Have a great project, insight, or innovation to share? FAB Month is your opportunity to showcase your work, connect with a global audience, and inspire the future of digital fabrication & emerging technologies!

☐ Why participate?

- ✓ Share your insights & breakthroughs
- ✓ Inspire makers & innovators worldwide
- ✓ Connect with a global network of changemakers
- ✓ Expand opportunities for collaboration

☐☐ Want to be part of it? Submit your talk proposal today!

☐☐ Apply here ☐☐

https://docs.google.com/forms/u/1/d/e/1FAIpQLSf5IADPG7gBPotHb2pbbel4oLuch9LcIDh6w4HwtD4RcsXAdA/viewform?usp=send_form

Let's build, innovate, and make an impact together! ☐☐☐

17:03:55 Von Ricardo Marques an Alle: osb doesn't have predictable thickness so be aware that it's hard to do press-fits with it Patrick - waag, Micka - FablabCuenca/ASQ:☐☐

17:04:20 Von saheen palayi an Alle: we received all the machines in fablab with the packaging of OSB sheets :)

17:08:50 Von Ricardo Marques an Alle: mcmaster-carr is known as one of the fastest websites on the web

17:08:54 Von jakob an Alle: can you somehow fold plywood if one cuts it in a specific way?

17:09:09 Von jakob an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": allright

17:10:16 Von Patrick - waag an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": technically we did it with the laser week with the flexible design parts

17:10:38 Von Adrián - Fab Lab León an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": Yes here you can find it <https://fabacademy.org/2020/labs/leon/students/adrian-torres/week07.html>

17:11:01 Von Adrián - Fab Lab León an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": <https://vimeo.com/397638800>

17:11:28 Von jakob an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": thanks!

17:12:01 Von Adrián - Fab Lab León an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": But at the end it broke ☹️

17:12:07 Von Adrián - Fab Lab León an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": {16C58EA4-3350-4036-AE63-5F97D853438F}.png

17:12:15 Von jakob an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": ah unfortunate.

17:13:09 Von Adrián - Fab Lab León an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": During the COVID time ☹️

17:13:13 Von jakob an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": this seems a bit risky. we do not have much time this week for working with the cnc milling machine. so i would rather go without these edges. no time to experiment :/

17:13:27 Von jakob an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": so i would rather go with the standard joints and see what i can do with that.

17:14:16 Von Adrián - Fab Lab León an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": You can do a little test like the one in the video.

17:15:35 Von Milliam an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": 20250306011524.png Adrián - Fab Lab León, Svavar Konradsson - Fab Lab Isafjordur, Tshering Dorji JNWSFL, Ricardo Marques, Nuria Robles | LEON:♥ Pablo Fab Lab Leon:☹️

17:16:01 Von Ricardo Marques an Alle: coatings will depend on the material you're working with. Coatings containing aluminium can cause problems when cutting aluminium for exemple.

17:17:00 Von Milliam an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": 20250306011652.png Adrián - Fab Lab León, Tshering Dorji JNWSFL:♥ Ricardo Marques:☹️ Pablo Fab Lab Leon:☹️

17:17:10 Von Pablo Fab Lab Leon an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": which wood is this?

17:17:24 Von Milliam an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": Plywood

17:18:06 Von Pablo Fab Lab Leon an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": the quality is the key Milliam:☐

17:18:18 Von Adrián - Fab Lab León an Alle: Replying to "can you somehow fold plywood if one cuts it in a s...": In my case, it broke along the grain of the wood. Milliam:☐

17:20:34 Von Ricardo Marques an Alle: note about ball end-mills, a very good portion of cheaper ball end-mills don't really have a predictable radius at the tip so dimensional accuracy isn't guaranteed. for mold making if the ball tip is very small it doesn't matter as much.

17:20:42 Von Steven an Alle: Wouldn't a straight flute endmill also produce good top & bottom surface finishes, though not as good in removing chips.

17:21:35 Von Steven an Alle: I've seen some cnc sites recommend these for wood machining.

17:22:32 Von andri-fab lab reykjavik an Alle: Fab Lab Feeds and Speeds Calculator https://pub.pages.cba.mit.edu/feed_speeds/ Frosti Gíslason - Iceland- Vestmannaeyjar - Fab Lab:☐

17:22:37 Von Pablo Fab Lab Leon an Alle: its great to use it, just check speed to have not much heat on the material

17:22:38 Von Ricardo Marques an Alle: there are some flat end mills with chip breakers that help with some materials too

17:22:53 Von Ricardo Marques an Alle: Replying to "there are some flat end mills with chip breakers t...": like cork

17:25:06 Von Aristarco an Alle: Many vendors already gives the chipload, cut Depth and feed rate for their bits. Amana site is great. Adrián - Fab Lab León:♥

17:25:07 Von Aristarco an Alle: https://www.amanatool.com/pub/media/productattachments/Carbide-Tipped-Straight-Plunge-Speed-Chart_v6.pdf Ricardo Marques:♥

17:26:10 Von jakob an Alle: what do you mean by "light" and "heavy metal machining"?

17:26:21 Von Ricardo Marques an Alle: Replying to "what do you mean by "light" and "heavy metal machi...": aluminium vs ferrous, for example

17:26:30 Von jakob an Alle: Replying to "what do you mean by "light" and "heavy metal machi...": allright

17:26:35 Von Jakob an Alle: Replying to "what do you mean by "light" and "heavy metal machi...": thanks :) Ricardo Marques:☐☐

17:27:28 Von Ricardo Marques an Alle: Replying to "what do you mean by "light" and "heavy metal machi...": even a 3018 can machine aluminium, even if it doesn't like it. For iron you need a lot of rigidity and power.

17:28:18 Von Garrett Nelson an Alle: toolmaker vise

17:28:35 Von Adrián - Fab Lab León an Alle: Replying to "what do you mean by "light" and "heavy metal machi...": This week it's more about wood... not aluminum.

17:28:39 Von Haw Ren - SG FabLab an Alle: V-cutter should be used when cutting organic surface... but the cons will be taking too much time to mill... as the total of layers required will be doubled or tripled...

17:31:36 Von Ricardo Marques an Alle: mistakes were made during last year's challenge in Mexico ☐☐

17:31:42 Von Ricardo Marques an Alle: 20240801_151200.jpg Daniel Perez, Tshering Dorji JNWSFL: ☐☐ Aristarco, Claire Lake Mac Libraries Fab Lab, Milliam:☐☐ Camila Luna - FabLab Cuenca ASQ, Doaa El-Bess:☐☐

17:38:18 Von Patrick - waag an Alle: and to think they did that before CAD...

17:38:22 Von Patrick - waag an Alle: Replying to "and to think they did that before CAD...": respect

17:46:12 Von Ricardo Marques an Alle: <https://www.bricsys.com/blog/everything-you-need-to-know-about-dogbone-fillets> Patrick - waag, Matthias:[] Frosti Gíslason - Iceland- Vestmannaeyjar - Fab Lab:[]

17:47:11 Von Jóhannes an Alle: dogbone addin for Fusion <https://tapnair.github.io/Dogbone/> Pablo Fab Lab Leon:[] Patrick - waag, Svavar Konradsson - Fab Lab Isafjordur:[]

17:47:49 Von Ricardo Marques an Alle: You'll have a lot of those when machining OSB

17:48:10 Von Adrián - Fab Lab León an Alle: DDFFA8B2-8D41-400E-B64C-549E4FE291B3.png Camila Luna - FabLab Cuenca ASQ, Matthias, Jesal | RIIDL, Svavar Konradsson - Fab Lab Isafjordur, Tshering Dorji JNWSFL:[] Patrick - waag, Frosti Gíslason - Iceland- Vestmannaeyjar - Fab Lab, Matthias, Artturi Vuorinen:[]

17:48:24 Von Ricardo Marques an Alle: Replying to "You'll have a lot of those when machining OSB": https://fabacademy.org/2022/labs/fct/students/ricardo-marques/images/week08/Cut_OSBIrregularity.jpg

17:50:16 Von Patrick - waag an Alle: lets add CAM to our TLA list Marius Araújo:[][][] Pablo Fab Lab Leon:[]

17:50:33 Von Ricardo Marques an Alle: PSA on FreeCAD CAM, by default it has canned drill cycles turned on with the Grbl post-processor. It's not supported by a lot of cheaper controllers. You need to add the "--translate_drill" parameter or edit the post-processor file.

17:51:20 Von Ricardo Marques an Alle: Replying to "PSA on FreeCAD CAM, by default it has canned drill...": I would recommend editing the file because you can also edit the pre and postamble. this is the location of the post processors

<https://github.com/FreeCAD/FreeCAD/tree/main/src/Mod/CAM/Path/Post/scripts>

17:52:02 Von Svavar Konradsson - Fab Lab Isafjordur an Alle: Replying to "dogbone addin for Fusion <https://tapnair.github.io...>": Another one, from the Fab Lab network:

<https://fablab.ruc.dk/more-elegant-cnc-dogbones/amp/> Adrián - Fab Lab León:♥

17:57:12 Von Adrián - Fab Lab León an Alle: Search your emergency buttons: Frosti Gíslason - Iceland- Vestmannaeyjar - Fab Lab:♥
